COURSE HISTORY AND ACCREDITATION

Ursula Thrush, world-renowned Montessori lecturer and trainer, established the Maria Montessori Teacher Training Center in September of 1972. Ms. Thrush was A.M.I. trained in London and Bergamo, for both primary and elementary levels, by Mario Montessori, the son of Maria Montessori, and others. She established the MMTTC so that she could continue to share with others the transformation she had experienced with her introduction to the Montessori mission. Over the years she inspired hundreds of candidates and became a catalyst in American education, aiding in the creation of many excellent Montessori teachers. Along with her work to promote education for peace in Montessori training centers and classrooms around the world, she continued to direct and train teachers in San Francisco until her death in 2002.

Rebecca Keith and Susan Cohn, both trained by Ursula in 1973-75 and 1980-82 respectively, have been training teachers under her watchful eye since soon after completing their training. They are trained to work in both primary and elementary classrooms. They still teach in their classrooms today, along with running schools and delivering the teacher training and occasional workshops. This allows them to continually be renewed and inspired by the children whom they serve. It also affords their trainees the opportunity to watch their trainers "in action," interacting spontaneously with children.

At Ursula's request, Rebecca and Susan are continuing the Maria Montessori Teacher Training Center after her death, merely transporting it to their own school locations, One World Montessori School and Brush Creek Montessori School, to better maintain and monitor the environments and materials. Located in the South and North Bay, both of these schools are non-profit organizations. The classrooms are fully equipped with Montessori materials that are available for MMTTC students to use for practice every school day between 3:30 and 6:30 P.M. Rebecca and Susan will continue to maintain the quality and rigor that has always been associated with MMTTC, as well as introduce new techniques and perspectives that increase the richness and depth of knowledge that they can confer to their students.

In 2003, Sister Christina Trudeau, a Montessori "living legacy," agreed to assist the program in its transition from San Francisco to the two new locations. She brings over 30 years of teaching and teacher training experience and has traveled the world in the service of Montessori.

The main office of MMTTC is at One World Montessori School. The Brush Creek site is an additional location. Courses are taught simultaneously at both locations

The MMTTC has received approval to operate from the Bureau for Private Postsecondary and Vocational Education ("Bureau"). An approval to operate means the Bureau has determined and certified that the institution meets the minimum standards for integrity, financial stability, and educational quality, including offering of bona fide instruction by qualified faculty and the appropriate assessment of students' achievement prior to, during and at the end of its programs. Although the BPPVE was disbanded by Governor Schwarzenegger in July 2007, the California Dept. of Consumer Affairs is now responsible for all previously licensed post-secondary schools.

The MMTTC was a charter member of MACTE (Montessori Accreditation Council for Teacher Education), and in November 2005 received Full Accreditation Status, which lasts a period of seven years, until 2012.

Academic upper division units (undergraduate) are available for our courses through the California State University, East Bay Extension (CSUEB, formerly known as CSU Hayward) at an additional per unit fee. These are considered to be specialization units by the CARES Program. The entire course is 24 quarter units delivered in 3 unit segments. Applying for this credit is optional, and is done through MMTTC at the beginning of each class.

MISSION STATEMENT

The mission of the M.M.T.T.C. N.B. and S.B. is to offer high quality teacher education courses that provide an in-depth study of Montessori's concepts and philosophy of education, her unique psychological insights into the child and the ways in which they can be effectively implemented in the classroom.

The goal of the Primary Course (2 ½ - 6) is to create transformed adults who will be sensitive and effective practitioners and creators of a Montessori environment, empathetic advisors to parents and enthusiastic representatives of the Montessori method, informing the general public about Maria Montessori's methodology and goal for human progress toward peaceful coexistence. In this manner we can best serve the needs of the child. To best transmit Dr. Montessori's principles, we are guided by this quotation from Education and Peace:

"We must develop the spiritual life of man and organize humanity for peace."

COURSE SUMMARY

This Primary course is an undergraduate course which trains adults to work with children from 2 ½ to 6 years of age. It is designed to be an interactive study based on Montessori's vision for lifelong learning, utilizing all her materials and methodologies, integrated with current research in child development and early childhood education. Instructors facilitate the learning process and share their experiences and resources. Opportunities are provided for observation and discussion of ongoing classrooms as well as attendance at parent information meetings and parent conferences. Trainees are required to participate in practice sessions with materials, present materials to the group at intervals, complete personal, illustrated curriculum manuals which describe the Montessori materials and outline their presentations, as well as explain the Montessori viewpoint on child psychology and development and the philosophy of education. They must also create a variety of teacher-made materials based on the models available in the training center classrooms, and eventually practice teach under supervision in ongoing Montessori environments.

The course intends to prepare adults to teach children, between the ages of 2 ½ and 6, in a Montessori environment. The academic phase can be completed in two school years or two summers, or a combination of both. A school year-long supervised internship, working at least three hours, five days a week, as an assistant in a functioning multi-age Montessori classroom is also required after the completion of the materials section of the course. This can be done in conjunction with the philosophy, psychology and classroom management segments of the course or separately. The MMTTC issues a Certificate of Completion upon successful completion of the course. Graduates of the program are qualified to hold a teaching position in a Montessori 2 ½ to 6 year old classroom [though a California State Teacher's Permit must be obtained before coming a head teacher. This usually requires 12 units of core classes, available at most community colleges].

The course includes instruction in the following areas: The Exercises of Practical Life, The Sensorial Materials, The Cultural Subjects, Peace Education, Language Development, Mathematics, Child Psychology and Development – Montessori's Approach (The Formation of Man), Montessori's Philosophy of Education - Cosmic Education, Classroom Management, and Observation Techniques.

PRACTICAL LIFE EXERCISES

The exercises of Practical Life assist in the development of the child's motor coordination, focus and concentration. Some of these activities lead him from large muscle movements, like those necessary for scrubbing tables and chairs, to the more refined movements necessary for buttoning, buckling, etc. The mastery of the associated skills assists the child in learning to care for himself and his environment. As the child acquires these skills and others, which focus on appropriate social interaction, he gains independence and self-confidence.

SENSORIAL EXERCISES

The Sensorial Exercises were created by Dr. Montessori to help make the child aware of the functioning of his/her senses and to refine and develop them. Each exercise isolates the input from one particular sense, intensifying and focusing the child's experiences of it through repetition of each activity. After the absorption of this sensory input, or "key experience", the child is given the language to associate with the experience, thus allowing him to classify and categorize the input he receives from his senses concerning his environment and express his experience accurately. The

Sensorial Materials include experiences for the visual, auditory, tactile, stereognostic, gustatory and olfactory senses as well as thermic and baric stimuli.

CULTURAL SUBJECTS

The Cultural Subjects are comprised of materials and exercises with which the child discovers the interrelatedness and interdependence of different aspects of the larger world. The areas they explore include physics, geography, biology, anthropology, history, music and art. Their synthesis provide the foundation upon which, combined with peace making and peace keeping skills, the Montessori peace education curriculum is built.

PEACE EDUCATION

Peace making and peace keeping skills, including problem solving and arbitration techniques, are demonstrated through role-play and practice. These, combined with the children's familiarity with the common needs of all people, gleaned from their work with People of the World and the Fundamental Needs of Humans' materials, build a solid foundation for a peaceful individual.

LANGUAGE

The most concrete aspect of language is sound. Therefore, to encourage language development, we first focus on increasing oral skills through vocabulary development and sound awareness activities, always associating words with concrete experiences. The specific materials and activities that assist the child with acquiring writing, reading and composition skills are presented, as are the materials that expose the child to the function of words and reading analysis.

MATHEMATICS

The concepts of quantity, symbol, sequence, arithmetic, geometry, algebra and fractions are introduced to the child through the use of beautiful, manipulative materials. The child proceeds from the concrete experience with the materials to understanding and utilizing the abstract concepts, which they embody and demonstrate.

CHILD PSYCHOLOGY AND DEVELOPMENT – MONTESSORI'S APPROACH (THE FORMATION OF MAN)

Along with an overview of its history and current ideas in the field of child psychology and development the study of Dr. Montessori's concept of the developmental stages, the Planes of Development, the Absorbent Mind, the Sensitive Periods and the Tendencies of Man, are explained and discussed, (assisted, in part, by the student's research and written reports on ten educators/ child psychologists)

MONTESSORI'S PHILOSOPHY OF EDUCATION – COSMIC EDUCATION

In this segment of the course, we enter into the study of Montessori's philosophy, which concentrates on the function of humankind within the framework of the evolution of life and the cosmos. The preparation of the child's imagination for the recognition of this great task is achieved by the use of creative, hands on materials relating to the evolution of consciousness.

CLASSROOM MANAGEMENT

Techniques for behavior management, record keeping, parent conferences and information meetings and staff communications, meetings, management and training, the schedule of the day, how to start a new classroom, how to set up a classroom, California State Licensing requirements

and other relevant subjects are presented and discussed. Opportunities to attend meetings at ongoing Montessori schools are provided.

OBSERVATION TECHNIQUES

Observation of children within the Montessori environment is an essential aspect of teacher training. It is only through the acquisition of excellent observation skills that the guide is able to properly assess each child and truly be "the dynamic link" between the child and the environment, knowing when to "kindle the flame of interest" and when to step back and allow the child to interact with the environment on his own. Twenty hour-long guided personal observations in Montessori classrooms are required of each student. These are written up and discussed with the class.

LENGTH OF CYCLE

The course is made up of an ACADEMIC phase and a PRACTICUM phase. The academic phase is composed of lecture, presentations of materials, group process and discussion, and supervised practice with materials, with a *minimum* of 366 hours of on-site, direct contact between instructor and student. The practicum (internship) is comprised of approximately 400 hours, including a *minimum* of 200 hours of student teaching and 200 hours of seminars, independent study, observation, projects, etc.

The academic phase is comprised of eight courses. It is possible to get transferable college credit for our course through the California State University, East Bay Extension. Each class is 3.0 units for a total of 24 credit units. The courses can be taken over six school-year quarters, in two summer intensive units (when offered) or in a combination of both. School-year classes are held on Mondays and Wednesdays from 4 PM to 7 PM. Summer intensive courses are held Monday through Friday from 9 AM to 4 PM. Students may enroll at the beginning of any quarter, but it is most successful to begin with the Practical Life and Sensorial unit. After successful completion of the materials portion of the course, students may then embark on a year-long internship during which they student teach 5 days a week, for at least half a day (three hours), under the supervision of a MMTTC-approved, Certified Montessori Teacher. Most students complete the cycle and are certified within a three-year period, however some are able to complete in two years.

BPPVE APPROVAL TO OPERATE

The MMTTC has received approval to operate from the Bureau for Private Postsecondary and Vocational Education ("Bureau"). An approval to operate means the Bureau has determined and certified that the institution meets the minimum standards for integrity, financial stability, and educational quality, including offering of bona fide instruction by qualified faculty and the appropriate assessment of students' achievement prior to, during and at the end of its programs. Although the BPPVE was disbanded in 2007, the Department of Consumer Affairs is now responsible for all licensed post-secondary institutions.

Students will be required to present materials to the group at large twice during the study of each curriculum area at Evaluation Circles, as well as demonstrate the ability to verbally explain the rationale of the materials and an understanding of the area of study. These presentations will be evaluated by the faculty.

ADMISSION PROCEDURE

All prospective students are evaluated without regard to race, sex, color, creed or national origin. A bachelor's degree is preferred, but not essential. Any student who wishes to attend the course and does not meet this admission requirement can meet with a co-director and be evaluated to be sure they have the ability to benefit from the education offered.

1. In order to apply to attend the MMTTC Primary Teacher Training Course, the prospective student needs to provide MMTTC with the following:
 - a. A completed application
 - b. A non-refundable application fee of \$50
 - c. A letter of intent, outlining the reasons why training is desired
 - d. Three letters of recommendation from individuals with which the prospective student has a professional relationship.
 - e. Copies of official transcripts from his/her former college or university.
2. After these items have been received, MMTTC will contact the prospective student and schedule an interview with the Director of Training.
3. After the interview, the applicant will be evaluated, based on the information gleaned from his/her transcripts, letter of intent, recommendations, and personal interview, and the Co-Director will complete an "Ability to Benefit" report.
4. The prospective student will then be notified as to his/her acceptance into the program through a letter of acceptance and will receive a financial contract to complete.
5. If the prospective student wishes to proceed, he/she needs to complete the financial contract and return it to MMTTC along with payment of the first installment.

ENROLLMENT DEADLINES

Deadline to enroll is one week prior to the registration date or first class meeting of any class, unless otherwise noted. All paperwork and payments must be received by this date.

MMTTC TUITION AND RELATED COSTS

Application Fee (non-refundable)	\$ 50.00
Course Tuition	\$3,000.00
Payable in six installments over two years or two summers	
Required reading books (approx.)	\$ 450.00
Supplies for teacher-made materials (approx.)	<u>\$ 300.00</u>
Total approximate cost	\$3,800.00

OPTIONAL ADDITIONAL COSTS

CSUEB Credit (\$78 per unit for 24 units)	\$1,872.00
(This may be changed by CSUEB with no notice) This fee is collected from each interested student by the MMTTC and sent to CSUEB at the registration for each quarter. This is optional.	

In addition, students who chose an intern site located more than 50 miles from MMTTC will need to pay for the cost of transportation of the field supervisor to and from their intern site for the required three on-site evaluation visits.

The Application Fee is due at the time of application. The first installment of tuition is due upon acceptance to the course. Payment each quarter is due on or before the date of registration. Any special arrangements for tuition payments must be made with the Director and documented in writing.

CANCELLATION POLICY - "BUYER'S RIGHT TO CANCEL"

A full refund of all fees, aside from the application fee, will be made available to all students in the following circumstances:

1. When the student cancels, in writing, the financial contract on or before the first day of instruction.
2. If the program is discontinued, or the specific segment is cancelled or postponed.

A full refund of all fees will be made if the student enrolled because of any misrepresentation in advertising, promotional materials provided by MMTTC, or misrepresentation of the program provided by MMTTC faculty members or other official representatives.

RIGHT TO WITHDRAW

The student has the right to withdraw from the program at any time, provided the intent to withdraw is received in writing. The student may not withdraw by calling the MMTTC or by not attending

class. The student has the right to receive a refund of tuition according to the refund schedule that follows.

REFUND POLICY

Cancellation of enrollment or withdrawal from the program will be determined by the refund calculation below. Refunds are calculated according to the pro rata minimum refund schedule, as defined by the State of California Bureau for Private Postsecondary and Vocational Education, whether or not the student was in attendance. **The \$50 application fee is non-refundable.** If the student has not paid the tuition in full, refund amounts will be adjusted according to the amount the student has paid to date. Refunds will be paid by check, within 30 days of the date of withdrawal or cancellation of the student. The pro rata refund schedule applies to students who have completed 60 percent or less of the course of instruction. Refunds for students who have completed more than 60% of the course will be at the discretion of the MMTTC Co-directors.

Refunds are calculated by:

- (1) Dividing the total tuition (less the application fee) by the number of hours in the program.
- (2) The quotient is the hourly charge for the program.
- (3) Establish the number of hours attended/number of class hours passed.
- (4) The amount owed by the student is derived by multiplying the total hours attended by the hourly charge for instruction, plus any equipment or materials fees owed to the MMTTC.
- (5) The refund shall be any amount in excess of the figure derived in line (4) that was paid by the student.

Example: Joan withdrew from the program after attending 10 classes (30 hours of instruction). Thirty hours multiplied by the hourly program rate of \$9.62 equals \$288.60. Since Joan has not incurred an equipment fee, this is the amount Joan owes. Joan paid the school \$1550.00 when she enrolled. The application fee is deducted, because it is non-refundable. The amount Joan owes is then deducted from the amount she paid, entitling Joan to a refund of \$1211.40.

SCHOLARSHIP

For the 2009-2011 course cycle, one full scholarship is being offered by DeLor Montessori, to honor one of their teachers who recently passed. The Dawn McKinley Memorial Scholarship will be open for application until a suitable candidate has been chosen by DeLor Montessori. For more information on how to apply for this scholarship, please visit our web site.

One World Montessori also offers one scholarship per cycle. This scholarship is limited to assistants currently employed by One World, and is chosen by the Director.

FINANCIAL AID

MMTTC does not provide financial aid to students at this time. The MMTTC does offer flexible payment options, however, and is happy to assist our students in any way possible to make the tuition more manageable, including spreading payments over three years. Please contact the course administrator to set up a payment plan that meets your needs.

CREDIT CARDS - PAYPAL

Student may opt to pay any part or all of their tuition or fees with a credit card via www.paypal.com, for a small additional fee (currently 2.9%, the PayPal fee). For more information about this program, please contact the course administrator.

ATTENDANCE/MAKE-UP POLICY

The Program is both intense and non-duplicate. Therefore, **absences are not permitted**. All absences are deemed serious and necessitate a meeting with the Director. Punctuality is assumed for the same reasons that absences are not permitted. All absences and tardy arrivals necessitate a return the following year to complete the class work, or private tutoring at a cost of \$20 per hour to be arranged with the instructor. Students who are absent for less than 10 percent of the clock hours may obtain class notes from other students and turn in all requirements at the due date. If there are extenuating circumstances which cause a student to miss a test, the student will be given the opportunity to complete the test as soon as they are able.

LATE MATERIALS POLICY

Materials are required to be submitted on time. Materials and albums are due on the last day of each course. If the student is not prepared to submit their materials or albums when they are due, they must submit a written explanation to the co-director, and outline a timeline for submission of the required materials. If a student has taken a course but neglected to turn in the required materials during the course, they will be allowed to turn in the materials within one calendar year of their enrollment in that course, *if they have provided the written explanation above*. After one calendar year, if they want to turn in materials they will need to pay an Album Review Fee of \$50 per album, as well as Material Review fees, so the MMTTC may contract with a Reader/Reviewer to properly grade and assess the materials required for the course.

SPONSORSHIP

Some schools sponsor Montessori candidates in exchange for teaching after graduation for a specific period of time. It is the responsibility of the student to arrange for sponsorship.

NON-DISCRIMINATION POLICY

MMTTC is non-sectarian and admits all students and staff regardless of race, color, sex, sexual orientation or ethnicity. It makes all rights, privileges, programs and activities generally available or accorded to students in a school available to all students indiscriminately. It does not discriminate in its administration, educational and/or admission policies.

SCHOOL AND STUDENT RECORDS

Student records are maintained on site for a five-year period as is required by the California State Law of Educational Institutions. Every effort is made to maintain student records indefinitely.

ACCESS TO RECORDS

Students may review their record or file at any time by setting up an appointment with the course administrator.

CONFIDENTIALITY & PRIVACY PRACTICES

The MMTTC guarantees that all student records will be kept confidential and in a secure location. We adhere to all generally accepted privacy practices regarding personal and sensitive student information. The MMTTC never gives out student information.

RIGHT TO WITHHOLD TRANSCRIPTS AND GRADES FOR NONPAYMENT OF TUITION

The MMTTC reserves the right to withhold a student's transcript or grades if the student is in default on a student tuition contract. If the student has made partial payment of his or her tuition obligation, the institution may only withhold that portion of the grades or transcript that corresponds on a pro rata basis to the amount of tuition the student has not paid.

TRANSFER

The entire sequence of curriculum components as delivered by MMTTC is required to successfully complete the Primary Teacher Training Program. It is unlikely that MMTTC would accept segments of training from other courses or that another course would accept segments of our training. However, credit units received through the California State University, East Bay Extension are recognized by all other accredited colleges and universities. *Enrollment in the CSUEB Extension is optional and students must register and pay for these units separately from their MMTTC Tuition.*

ENGLISH AS A SECOND LANGUAGE (ESL)

The MMTTC does not offer English-as-a-second language instruction, nor does it offer courses in any language other than English.

CERTIFICATE OF COMPLETION

To be certified, students must successfully complete all the components of the program, turn in all required materials and fulfill all the requirements. A Certificate of Completion is conferred by MMTTC upon the successful completion of the academic and internship phases. Successful completion is defined by completing all required work as defined in the Standards of Completion portion of this catalog, and receiving a letter grade of C or better on all work and evaluations.

ADDITIONAL COPIES OF CERTIFICATES AND TRANSCRIPTS

The student is given a Certificate of Completion and official transcript when training is successfully completed. Additional copies of Certificates are available for \$10 each. Additional copies of transcripts are available for \$5. If the student was enrolled prior to 2003, the student will be required to pay for a records search, below, unless the student can provide an old transcript or Certificate (copy or fax OK) for verification of completion.

RECORDS SEARCH

Former students of the MMTTC may request a records search for \$30. The records search is required to determine whether or not the student completed the program. In the case of a student who didn't complete the program, this fee covers the cost of research and assessment to determine what courses and materials need to be submitted in order to complete the training and receive Certification. In some instances, a record search may reveal that a student is ineligible to complete the training due to poor attendance or due to lack of required grades or materials. If the records

search reveals that the student did successfully complete the program, a transcript and Certification will be issued for no additional fee.

If the former student can provide proof of completion of the program by way of an old transcript or old Certificate, the records search is not required.

EXTENDED ENROLLMENT POLICY AND FEES

Students who are unable to complete a portion of the course within the prescribed time period, and who have paid for that portion of the course, may opt to take that portion of the course when it is offered in the future. There is no charge for this service. Students who wish to make up portions of course work can arrange to do so with the co-director and/or a faculty member for an additional fee to be determined according to the amount of tutoring necessary. If a student wishes to turn in outstanding materials in order to complete the training after the enrollment period normally covered by tuition, and if more than one year has passed since the student was enrolled, there will be a fee of \$50 per album to be reviewed, as well as fees for other materials or papers to be reviewed (see “LATE MATERIALS POLICY”).

CSUEB GRADES - TIME EXTENSIONS

Occasionally a student is unable to turn in the required class materials before the end of a course. In this case, the MMTTC submits an Incomplete (“INC”) grade to CSUEB. **CSUEB requires the student to clear the “INC” within one year.** If the “INC” is not cleared within that time period, the “INC” automatically converts to an “F”, and is **unable to be changed by the MMTTC**. If a student knows they will be unable to complete within the year, they may request a two-term extension, which will allow them another 6 months to complete the work. Only one two-term extension will be granted per course.

LEAVE OF ABSENCE

Students requiring a leave of absence (LOA) must consult with a co-director. Student must request a LOA in writing. Not attending class does not count, nor do verbal requests. The student’s tuition must be paid in full for the portion of the course which they did attend, in order to be placed on LOA status. The student must contact the MMTTC to resume training when they are ready. Students who wish to resume training after a LOA of three years or more must resume training from the beginning, unless they completed all the course work and materials for the courses they did attend. If the course work was completed, they may take only the classes they need to complete.

PLACEMENT ASSISTANCE

Although some placement assistance to graduates is offered, there is no guarantee made to the student. Some schools contact MMTTC when they are in need of teachers or assistants. When that occurs, MMTTC posts such notices on their web site. NAMTA also issues notices of job openings, and these notices are available on NAMTA’s web site at www.namta.org. Graduates make their own arrangements for employment. MMTTC cannot guarantee employment, salary or occupational advancement.

DISMISSAL

The Director of Training is responsible for making the decision to dismiss a student. Students may be dismissed for the following reasons:

1. Unprofessional behavior.
2. Instability with regard to the performance of student in relationship with children.
3. Inability to perform academic course work successfully.
4. Inability to turn in required course materials in a timely manner.
5. Less than 90% attendance if course work is not made up.
6. Non-payment of fees.

Before dismissal occurs, a student may be placed on probation for one or more of the above reasons. If, after one month, the student's performance is still unsatisfactory, dismissal will then ensue. Tuition refunds that occur because of dismissal will follow the same refund schedule as described in the admissions procedure (see above).

STUDENT RIGHTS – PROGRAM RESPONSIBILITIES

In order to preserve and protect the rights of students, MMTTC makes a commitment to fulfill the following responsibilities:

1. Emphasize quality.
2. Report tuition costs completely and accurately.
3. Award credit to all qualified students.
4. Disclose accurate information about the acceptability of credit for this course by other institutions.
5. Ensure fair, reasonable, meaningful and timely academic evaluations and grades, based on the quality of student performance.
6. Maintain transcripts and records of graduates properly and guarantee confidentiality and student access to their own records.
7. Inform students regularly of their academic progress and award certificates after all stated requirements are fulfilled.
8. Provide adequate facilities and services to support academic goals.
9. Offer quality instruction through instructors who have appropriate training and expertise, are up-to-date in their fields, meet scheduled classes, come to class prepared and are available to students outside of class.
10. Describe course requirements in clear, specific, and accurate terms, in written form, to insure that educational requirements are meaningful.
11. Notify students of unusual features of the course that cannot be readily anticipated.
12. Forgo unconditional changes in the requirements for students who have already enrolled in the course.
13. Offer course work that is comparable to its catalog description.
14. Embrace the principle of academic honesty.
15. Publish causes for dismissal in clear and specific form and to dismiss a student only for due cause and after due process.

PROGRAM RIGHTS – STUDENT RESPONSIBILITIES

MMTTC maintains its rights as an institution of education, and expects students to be responsible for the following:

1. Be committed to acquiring Montessori Teacher Training and willing to put forth maximum effort in its pursuit.
2. Be informed – read all information disseminated by the course.
3. Take an active part in planning and executing their course of study within the context of stated requirements and existing institutional resources.
4. Continually monitor their academic progress.
5. Attend class and participate in other required activities.
6. Come prepared and complete assignments on time.
7. Be informed about the full cost of the program.
8. Satisfy financial obligations to the program in a timely fashion
9. Read and fully comprehend contracts before signing them.
10. Keep a record of all contracts and receipts.
11. Be knowledgeable about other teacher training programs and assure yourself that your enrollment in MMTTC is based on an informed decision. Read published information, interview students, former students and staff concerning their experience with MMTTC before making a final decision.

STUDENT ARBITRATION PROCEDURES

Arbitration Procedures are developed to arbitrate significant complaints or grievances by students, faculty or practicum consultants. They will be used to decide on a course of action in response to a grievance, which shall be binding on all parties. All grievances shall be arbitrated by an arbitration committee composed of the director of the program, one faculty member, one student and one "stand-by" faculty member, who will take the place of any faculty member on the committee against whom the grievance is brought. In the event that the student member is bringing a grievance, an alternate student will be elected by the remaining students to act in his/her stead. No solution can be arrived at which is in conflict with the Pan American Montessori Society requirements for training programs, internship sites, etc.

AREAS OF GRIEVANCE

The MMTTC Arbitration Committee will consider grievances against the program, its management and faculty in the following areas:

1. Incomplete or seriously deficient training during the training program.
2. Failure of the program to meet MMTTC requirements during field experience.
3. Failure to meet financial obligations.

GRIEVANCE PROCEDURES

1. The individual initiating the complaint must first attempt to resolve it with the involved party. This solution must be acceptable to the course director if it involves any change in course requirements including assignments and attendance.
2. If no solution is reached, the complaint is then brought before the Arbitration Committee. If a hearing is deemed in order, the Arbitration Committee shall hear presentations from both sides and attempt to mediate, deciding in a solution satisfactory to both parties. If this fails, the Committee shall decide by majority vote on a binding course of action.

3. Individuals who feel the action taken by the Arbitration Committee is not appropriate may appeal to the PAMS Arbitration Committee. If a hearing is deemed in order, the PAMS Arbitration Committee shall hear presentations from both sides and attempt to mediate, deciding in a solution satisfactory to both parties. If this fails, the Committee shall decide by majority vote on a binding course of action.

4. Individuals who feel the action taken by the PAMS Arbitration Committee is not appropriate may appeal to the MACTE Commission. If a hearing is deemed in order, the MACTE Commission shall hear presentations from both sides and attempt to mediate, deciding on a solution satisfactory to both parties. If this fails, the Committee shall decide by majority vote on a binding course of action. The decision of this committee shall be considered binding to all parties, and no further appeal is possible.

INTERNSHIP/PRACTICUM PHASE

Once the student has completed the Practical Life & Sensorial, Cultural, Language and Math portions of the course (including turning in all required materials for those courses), they are eligible to begin the practicum phase (aka: internship) of their program. Students seek out an approved Montessori school in which to be an intern. In order to be considered “approved,” the school must meet certain minimum standards, and the supervising teacher (aka: master teacher) must hold a Montessori Certification at the level supervised and be in at least his/her second year of teaching after receipt of their credential or certification. The supervising teacher also agrees to observe the intern and complete the required paperwork on time, including an Intern Observation Report every three months (total of three times during the internship). Master Teachers are responsible for getting copies of all completed forms and report back to the MMTTC. The MMTTC also requires the student to be observed at least once by a Field Supervisor or a Co-director. The student may choose to complete the entire academic portion of the course before embarking on the internship phase.

The MMTTC will support the student in their attempts to locate an internship site, but it is the responsibility of the student to secure this internship. The internship is ideally a paid position working in a Montessori classroom for at least five mornings a week, for nine to ten months (one school year).

When the student is ready to pursue an internship site, the student may request all the required forms to submit to the potential school and supervising teacher. These forms include a Practicum Site Agreement, a Master Teacher Agreement, a Pre-Observation Form and Intern Observation Reports. The student or Master Teacher must return the completed forms to the MMTTC prior to the start of the internship or the internship will be invalid. **Failure to submit the completed Intern Observation Reports also invalidates an internship.**

For more information on the practicum phase of the program, students may meet with the Director or the course administrator.
